

The Sound Learning Centre
SenseAbility Sensory Development Programme

**Enhance your child's co-ordination, memory
concentration and organisation.**

**Help your child to express themselves
and speak more fluently.**

**Prepare your child for school
and give them the head start they deserve.**

A one-day practical course for parents, teachers, health and education professionals that will show you how to help a child reach their full potential, eliminating possible learning difficulties even before they emerge. An invaluable course for anyone interested in child development.

This groundbreaking course is based on 25 years of therapeutic work with children and adults with learning and sensory difficulties and incorporates the latest findings in these fields. You will gain a comprehensive understanding of how hearing, vision, reflexes and sensori-neural systems impact on healthy child development; learn how to evaluate and track progress yourself and have all the tools to implement an effective home or school based programme to support a child in their further development and learning. The suggested activities and included materials are suitable for children aged three to early teens.

Next SenseAbility Course – Saturday 23 November 2019

Costs are £195 per participant including all course materials, refreshments and lunch. Reductions are available for multiple bookings. For more details or to book a place, please contact us on Tel: +44 (0)20 8882 1060 or visit the website at www.thesoundlearningcentre.co.uk.

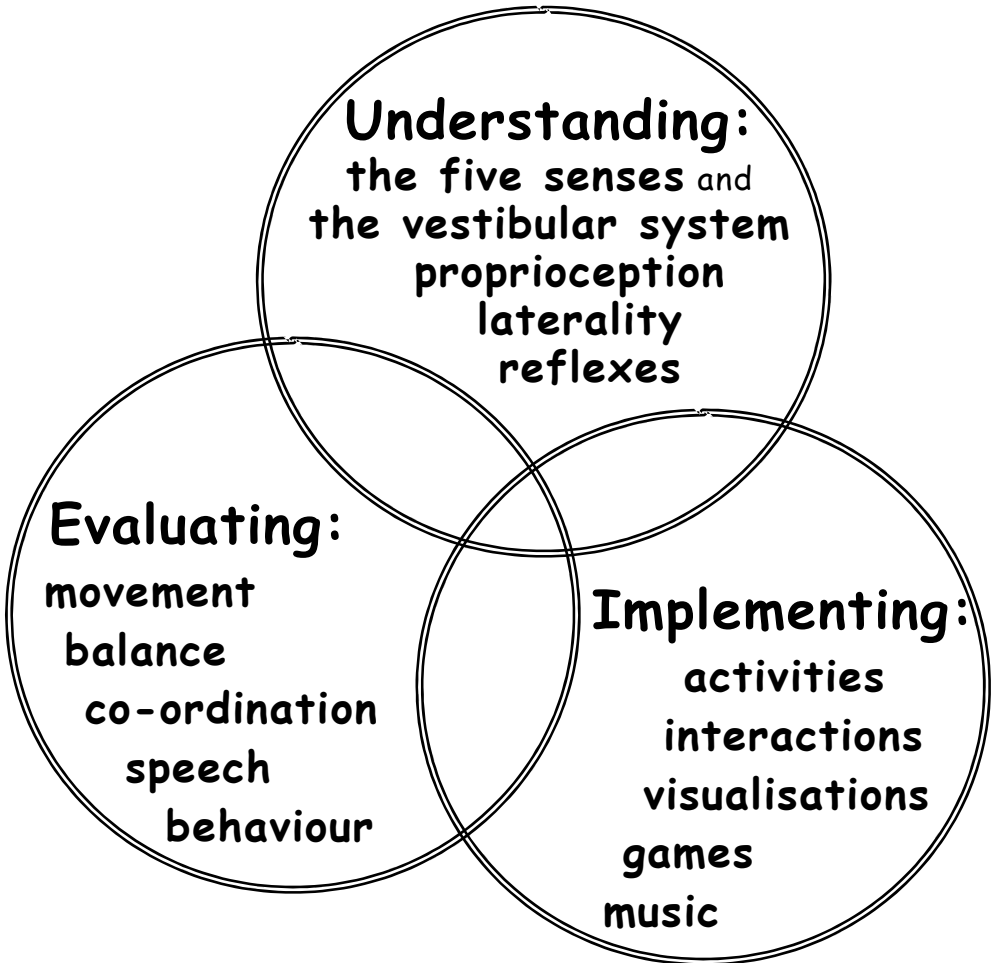

There is a **£20 reduction** if SenseAbility is booked and pre-paid up to two weeks prior to the Course date.

Sense Ability

The Sound Learning Centre

Sensory Development Programme

A one-day practical course for parents, carers, education and health professionals, helping children reach their full potential and eliminating possible learning difficulties. Understand how the senses and other functions impact on a child's ability to learn and develop. Learn how to evaluate and track progress. Get the tools to support your child in reaching their full potential.
